RE: In the Matter of applications of AT&T Inc. and Deutsche Telekom AG for consent to assign or Transfer Control of licenses and Authorizations (WT Docket No. 11-65)

Dear Chairman Genachowski and Commissioners:

IMPACT is an organization interested in engaging youth in enriching educational activities and positive fun. As such, IMPACT is interested in supporting any efforts that help us better connect with young people. This is why IMPACT is writing in support of the AT&T and T-Mobile merger, a merger that will expand access to wireless broadband internet and help us connect with today's increasingly sophisticated youth population.

It is our understanding that this merger will extend wireless broadband internet access to large numbers of Americans who do not currently have such access. IMPACT wants to use this positive development to its advantage and begin using wireless broadband internet to enhance our existing mentoring, tutoring, and job training programs.

The only way we will be able to take advantage of this merger and provide support and educational programs to today's youth is if the merger of AT&T and T-Mobile is allowed to proceed. For the good of young people in Mississippi and nationwide IMPACT calls on the Federal Communications Commission to approve this merger.

Sincerely,

ALEXANDRIA BURRELL

Alexandria Burrell
